

The City of Cape Coral is beginning a construction project to replace water mains and install new storm drainage along an approximately 1.2-mile area of Nicholas Parkway East from Santa Barbara Boulevard to Country Club Boulevard. Other improvements consist of installing new curb and gutter and swale work. The roadway pavement will be reconstructed to help motorists better navigate the curves along the parkway.

Early offsite work includes constructing storm drainage improvements from Nicholas Parkway East north along SE 2nd Avenue, east on SE 10th Terrace, north on SE 1st Place, then east between the houses located on the south side of SE 9th Terrace and Hunter's Run Golf Club.

More information will be mailed to residents and businesses in a project newsletter coming later this month. We encourage you to visit the project website now at www.NicholasParkwayEast.com and sign up for construction updates.

Construction Look Ahead

Week of May 30, 2022

(Changes Shown in Red)

Offsite Construction Zone

- Crews will be completing general restoration items in the offsite construction zone.

Main Construction Zone

Crews will test the newly installed water main in the main construction zone.

Nicholas Parkway is reduced to one lane each way between Santa Barbara Boulevard and Country Club Boulevard while crews make watermain, drainage and sidewalk improvements and rebuild the roadway.

- Motorists should expect lane shifts.
- Motorists should follow detour signs.
- This lane reduction will remain in place until the work is completed.

The following side roads remain closed at Nicholas Parkway. Motorists should follow detour signs.

- SE 4th Avenue
- SE 5th Avenue
- SE 5th Place
- SE 5th Court

Westbound Nicholas Parkway from Santa Barbara Boulevard to New Hope Church is reduced to one lane in each direction for local access to north side properties.

Drivers, bicyclists, and pedestrians should use caution. This schedule may be subject to change due to inclement weather and unforeseen underground conditions.

For additional information, contact the Public Information Consultant for the project, Cella Molnar & Associates, Inc. at 239-337-1071 or info@NicholasParkwayEast.com.
