May 9, 2023

The City of Cape Coral is replacing water mains and installing new storm drainage along an approximately 1.2-mile area of Nicholas Parkway East from Santa Barbara Boulevard to Country Club Boulevard. Other improvements consist of installing new curb and gutter and swale work. The roadway pavement will be reconstructed to help motorists better navigate the curves along the parkway.

Early offsite work included constructing storm drainage improvements from Nicholas Parkway East north along SE 2nd Avenue, east on SE 10th Terrace, north on SE 1st Place, then east between the houses located on the south side of SE 9th Terrace and Hunter's Run Golf Club.
